### MD's Message

Dear Shareholders,

The year gone by was a challenging one but was nonetheless, full of opportunities. Despite the difficult times, we believe what helped us navigate well, through the lows, was continued focus on our strengths and our determination to perform well. While the economic outlook still looks a little bleak, there have been signs of recovery on certain aspects that give us the much-needed relief and a new-found hope, as we enter the new financial year.

In FY2022, we achieved a revenue of ₹ 927.34 Crores, that is a growth of 50.8% over last financial year. This growth was driven by increased sales tonnage from 58,550 tonnes in FY2021 to 71,905 tonnes in the current fiscal. The remaining growth came from increased sales realization in terms of improved product mix with exports making up a larger slice than before (24.0% of revenues

in FY2022 vs 20.7% in FY2021) and pass through of increases in raw material prices that happened throughout the year. In exports, we crossed the ₹ 200 Crores mark and reported our highest ever exports at ₹ 221.48 Crores, up 75.4% against last financial year. Our EBITDA margin stood at ₹ 9.0/kg against ₹ 9.2/kg in FY2021, due to the continuous increase in raw material prices and the lag in passing it to our customers.

I would like to take this opportunity to thank our employees for sticking through despite the difficult times. Our focus has been to go an extra mile in taking good care of the health of our employees along with the financial health of the Company.

Going forward, we expect demand in Medium & Heavy Commercial Vehicles (M&HCV) industry to remain strong. Typically, from a seasonality perspective, we normally see a 20-30% dip in CVs in Q1 compared to the preceding Q4. Fortunately, we have not seen that happen this year and they seem to be flat and potentially even on an increasing trend which is a very positive sign. Additionally, the production numbers projected by our customers in the CV space for the next few months have been encouraging. Given these factors, we expect the M&HCV would grow around 20% or so this year.

Similarly, on the tractor segment, we are seeing projections of strong growth by all the tractor manufacturers in terms of production volumes. These projections are being backed up by real demand as well with a growth of about 40% in April & May compared to the same period last year. Given the improving rural sentiments on the back of high reservoir levels, better crop price realization, forecast of normal monsoon and availability of credit, we believe the market is primed for a record year.

### MD's Message - (Contd.)

We expect both M&HCVs and tractors to give a significant boost to our numbers. Along with this, we believe exports shall continue to perform well and have another strong year. This may be driven by a couple of things. First, the significant order backlogs among the OEMs in the US that has built up over time due to the shortage of semiconductor chips. However, the gradual improvement in terms of the availability of these chips will help ramp up the production among all our customers, which will ultimately drive growth for Nelcast. We have further planned new product launches that will happen in the second half of the year. These new launches will include our entry into the Light Vehicle segment in the US and the production will be fully ramped towards the end of the current fiscal year. We are further venturing into the EV space with the new order win for a component that will be used in an electric delivery truck. We shall be productionizing this component in the second half of the financial year as well.

There are also several new products that we have developed at our Pedapariya plant. These products along with the growth in the market, give us confidence that the utilization at our Pedapariya plant will undergo a significant ramp up. This will aid in improved operating leverage and achieve better profitability in the next financial year and beyond.

With this, I would like to thank all our stakeholders for your continued support in our journey. We are very excited to begin this year with full of hope and optimism.

With warm regards,

P. Deepak
CEO & Managing Director

The production during the year was 74,881 MT, compared to previous year's 55,706 MT. During the year, the revenue and profitability improved due to better market demand from the domestic commercial vehicle industry and increased exports.

### MATERIAL CHANGES & EVENTS AFFECTING THE FINANCIAL POSITION OF THE COMPANY

There are no material changes and events affecting the financial position of the Company occurred between the end of the financial year and the date of this report.

### OUTLOOK

Last year was very challenging for automotive industry due to the impact of COVID, supply chain disruptions, semiconductor shortage, coupled with rising input costs and diesel prices on the back of geopolitical crisis. Despite facing challenges, the Medium & Heavy Commercial Vehicle (M&HCV) segment bounced back in FY2021-22, reporting a growth of over 47% YoY. Rising truck utilization has been crucial in boosting freight rates that has resulted in increased demand for the truck segment. The first quarter was significantly impacted by the second-wave of COVID, however, volumes started to recover slowly in the second & third quarter matching the pre-pandemic levels. As we entered the fourth quarter, we witnessed a complete turnaround with volumes picking up pace setting a very healthy platform for the industry to go back in a healthy growth cycle in the coming years. Subsequent to the introduction of BS-6 vehicle norms, which has set a very good ecosystem in the economy, the operators are now more confident of operating technologically advanced vehicles with lower emissions, longer life and good fuel efficiency. With all these factors in place, we believe that the commercial vehicle industry has a strong potential upside for growth in the current year.

The Indian tractor industry declined by 6% in quantity terms in FY2021-22, after registering the highest ever annual production and domestic sales in the previous year. However, the industry achieved its highest ever export volumes during the year. The decline in domestic sales can be majorly attributed to high base effect of the previous fiscal. The increase in crop production and tractor sales resulted from favourable monsoon rains in the last two years. India has been expanding its tractor portfolio considerably, offering small horse-powered tractors to large capacity ones. Ever since the pandemic affected some crucial global markets, India has been capitalizing on the export opportunity and expanded to different continents with a better supply network. The Tractor industry expects a strong growth in the coming years on the back of augmented financial support to farmers through loans and subsides, growth in agricultural productivity, tremendous potential to grow in the export market, government initiatives regarding rural development and farm mechanization along with various other factors, such as high rural wages and scarcity of farm labour, are likely to increase the tractor volume over the long term.

The ongoing scenario and challenges with respect to the geopolitical uncertainty, war and economic sanctions are expected to persist in the coming year as well. This will further impact input costs and inflation. Despite this, the fundamentals remain strong and long-term outlook remains positive for the Automotive Industry.

## MANAGEMENT DISCUSSION AND ANALYSIS

#### **Macroeconomic Overview and Outlook**

The global GDP increased by 6.1% in 2021 against a decline of 3.1% in 2020, according to IMF's World Economic Outlook report of April 2022. The first half of 2021 started with a sharp setback due to the delta variant, but the global recovery started to pick up pace thereafter. The progress was widely differentiated across countries given the access to vaccines and the size and durability of monetary policies and fiscal stimuli from the respective governments. Global growth lost its pace again in the second half of the year affected by another COVID-19 variant - Omicron, a mild but highly transmissible variant. This led to global supply chain and logistics disruptions. Despite this, the global trade revived in the second half and grew by 10.1% in 2021. To emphasise on the upturn, the global manufacturing improved as well, from 4.2% in 2020 to 9.4% in 2021, according to United Nations Industrial Development Organisation (UNIDO).

As the economy rebooted, the increased pent-up spending supported aggregate demand, however, continuing supply disruptions gave way to increased inflation in the US, Europe, and several emerging market economies. Emerging demand and supply bottlenecks led to a steep increase in commodity prices as well. Monetary and fiscal measures remained largely accommodative, however, inflation breaching the upper limit compelled a number of emerging and advanced economy central banks to tighten their monetary policy.

The global GDP is expected to grow by 3.6% in 2022, mainly impacted by the ongoing war, sanctions on Russia, rising inflation and lack of fiscal support from the government due to higher COVID-related spending in 2020-21.

India's real GDP grew by 8.9% in FY2022 against a decline of 6.6% in FY2021, as per Reserve Bank of India (RBI). The first half of FY2022 took a terrible toll with the second wave turning out to be the worst health crisis, India has ever encountered. However, the GDP started to bounce back thereafter, supported by monetary and liquidity initiatives by RBI and fiscal measures that ended up improving the financial conditions. The growth continued as we entered the second half, however, the geopolitical conflict and rising inflation have become major hurdles in the path to recovery.

## **Industry Structure and Developments**

The automotive industry in India has been witnessing a slowdown over the last three years and 2021-22 was challenging due to the second wave of Covid & semiconductor shortage. The Medium and Heavy Commercial Vehicle industry was severely impacted in the first half of the year with strong recovery in the second half. The Tractor industry started strong but slowed down in the second half of the financial year.

Last year was very challenging for automotive industry due to the impact of COVID, supply chain disruptions, semiconductor shortage, coupled with rising input costs and diesel prices on the back of geopolitical crisis. Despite facing challenges, the Medium & Heavy Commercial Vehicle (M&HCV) segment sparkled in FY2022, reporting a growth of over 47% YoY. Rising truck utilization has been crucial in boosting freight rates that has resulted in increased demand for the truck segment. The first quarter was significantly impacted by the second-wave of COVID, however, volumes started to recover slowly in the second & third quarter matching the pre-pandemic levels. As we entered

the fourth quarter, we witnessed a complete turnaround with volumes picking up pace setting a very healthy platform for the industry to go back in a healthy growth cycle in the coming years. Subsequent to the introduction of BS-6 vehicle norms, which has set a very good ecosystem in the economy, the operators are now more confident of operating technologically advanced vehicles with lower emissions, longer life and good fuel efficiency. With all these factors in place, we believe that the commercial vehicle industry has a strong potential upside for growth in the current year.

The Indian tractor industry declined by 6% in volume terms in FY2021-22, after registering the highest ever annual production and domestic sales in the previous year. However, the industry achieved its highest ever export volumes during the year. The decline in domestic sales can be majorly attributed to high base effect of the previous fiscal. The increase in crop production and tractor sales resulted from favourable monsoon rains in the last two years. India has been expanding its tractor portfolio considerably, offering small horse-powered tractors to large capacity ones. Ever since the pandemic affected some crucial global markets, India has been capitalizing on the export opportunity and expanded to different continents with a better supply network. The Tractor industry expects a strong growth in the coming years on the back of augmented financial support to farmers through loans and subsides, growth in agricultural productivity, tremendous potential to grow in the export market, government initiatives regarding rural development and farm mechanization along with various other factors, such as high rural wages and scarcity of farm labour, are likely to increase the tractor volume over the long term.

The ongoing scenario and challenges with respect to the geopolitical uncertainty, war and economic sanctions are expected to persist in the coming year as well. This will further impact input costs and rise inflation. Despite this, the fundamentals remain strong and long-term outlook remains positive for the Automotive Industry.

#### **ABOUT NELCAST LIMITED**

Incorporated in 1982, Nelcast Limited ("Nelcast" or "the Company") is a leading producer of ductile & grey iron castings in India. Besides a strong position in the domestic market, the Company has a rapidly growing presence spread across North America, Europe and Southeast Asia as well with over 24% of its overall revenues generated from the export markets. The Company caters to a marquee clientele of Original Equipment Manufacturers (OEMs) and Tier-1 customers in Commercial Vehicle, Tractor, Off-Highway Equipment, Railways & Passenger Vehicle segments. Nelcast has an aggregate installed production capacity of 160,000 Metric tonnes per annum. Its factories are located at Ponneri in Tamil Nadu, and at Gudur and Pedapariya in Andhra Pradesh.

## **Segment wise Performance**

The Company deals in only one segment i.e., Iron Castings. Therefore, segment wise performance is not applicable for our Company.

## **Strengths**

- Diversified customer base with strong relationships: Nelcast has a distinguished customer base of over 40 customers that includes OEMs and Tier 1 companies. It serves as a strategic supplier and partner of first choice to TAFE, Tata Motors, DANA, Ashok Leyland, Automotive Axles Limited, Meritor and American Axles & Manufacturing, among others. The Company is a onestop shop for its customers for Grey Iron, Ductile Iron and Austempered Ductile Iron ranging from 0.5 kg to 400 kg. Awards received over the past few years for categories like 'Best in Class Supplier', 'Best Delivery Performance', 'Platinum Award for Best Quality', among others serve as a validation for its efforts to deliver value to its customers.
- 2. Strategic Location: Nelcast's manufacturing plants are in close proximity (37-140 km) to Chennai, which is a major manufacturing hub for automotive companies. Chennai forms both a key customer base for Nelcast and a reliable source of steel scrap, a crucial raw material for the Company. All 3 plants are within 15-110 km of India's largest source of Silica Sand near Gudur. Moreover, Chennai's International airport with direct flights to Europe, Middle-East & Southeast/East Asia make it convenient for customers to visit and see the Company's world class facilities first hand. The location also enhances Company's export business given it is close to Krishnapatnam & Chennai seaports that gives Nelcast easy access to reach its customers around the world.
- 3. Strong Export growth potential: India is being viewed as a key cog in the global automotive supply chain. Sourcing machined castings from India is now becoming an attractive option for global customers. Nelcast is among the few companies in the industry capable of meeting the requirements of top global OEMs & Tier 1s. Currently, the Company exports machined castings to reputable corporates in North America, Europe and Southeast Asia. Revenue from exports has grown 6x in the last 5 years growing at a CAGR of 38% and stood at ₹221 Crores in FY2022.
  - Moreover, we believe that the export opportunity has become even larger for us than it was before given the war situation and the current global scenario. Improvement in the semiconductor supply bottlenecks, rising energy prices in Europe and customers catching up on their order backlogs and labour shortage problem in North America is expected to make manufacturing of castings in India an extremely attractive option. So being the frontrunners, we expect this to give a huge boost to our export business. Additionally, our upcoming launches and global recovery affirms our belief that the export market is going to be a key growth driver for us in the coming years.
- 4. Great product mix: Nelcast has a very differentiated product portfolio. The Company specializes in manufacturing medium to high complexity products where it is able generate medium volumes and high margins. This helps the Company to compete against the local and Chinese suppliers, that mainly compete on low complexity products.
- 5. Strong Business Foundation: The Company has a healthy cash balance that stood at ₹ 61.35 Crores in FY2022. Furthermore, it has received an investment grade rating for short term (A1) and long term (A) fund from ICRA on the back of adequate liquidity, strong relationship with major OEMs and a diversified clientele. The Company has created an installed capacity for 160,000 Metric tonnes per year and can enhance the capacity further by 50,000 Metric tonnes within the existing manufacturing plants with minimal investment.

## **Opportunities And Threats**

The Company supplies castings for Commercial Vehicles, Tractors, Off-Highway Vehicles and Railways. The Company enjoys the confidence from its valued customers for providing quality products. Therefore, as newer and more advanced castings are developed, the Company has an edge over the competition due to its diverse capabilities.

The company has made significant investments to increase capacity and is poised to take advantage from the growth from both the domestic automotive industry and the global market.

The Company continually reviews its business plan and draws out action plans to leverage on its opportunities and counter any threats. The main threat to which the industry is exposed to is volatility of the market which affects capacity utilization and volatility of commodity prices which impacts the input costs. However, the Company strives to create sustainable profitable growth by continuing to focus on technology and quality while offering wide range of products to diversified segments and customers, which will give us a competitive edge in the market.

#### **RISKS AND CONCERNS**

## **Economy and Market Risk:**

Economic recession gripped global economy following the lockdowns and surge in infections due to the Covid-19 pandemic was sudden and unexpected. While India is facing a tough battle with the second wave, a potential third wave or other complications could again impact both the domestic and global economy. External factors such as government policies and rainfall could have a significant impact on sales of Tractors and Commercial Vehicles, which are cyclical in nature. To mitigate the risk of seasonality & cyclicality in the domestic market, the Company has been developing its exports and products in other segments viz. off-highway, railways etc.

## **Input Cost Risk:**

Our profitability and cost effectiveness may be affected due to change in the prices of raw materials, power, and other input costs. While we are typically able to pass on these costs to our customers with a slight lag, This risk is significant and is carefully monitored. We are working on increasing our captive power sources (primarily, wind and solar) to minimize our power cost and operate in an environmentally sustainable manner.

## **Currency Risk:**

The Company's exposure on foreign currency is primarily through earnings from exports. The company also might import some capital goods and raw materials only when prices are favourable. However, this exposure is typically short term. The company does selective hedging of imports and exports to hedge its risks associated with exchange rates. Any substantial long-term liabilities viz. ECBs are fully hedged by the Company.

#### Interest Rate Risk:

The Company aims to judiciously managed the debt-equity ratio. It has been using a mix of debt and internal cash accruals. The company works closely with our banks to minimise the interest costs. The Company works to manage the working capital requirements to reduce the overall interest cost.

#### INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

Internal control systems in the organization are looked at as the key to its effective functioning. The Company has a proper and adequate system of internal controls to ensure that all assets are safeguarded and protected against loss from unauthorized use. The Company's internal controls are supplemented by an extensive programme of internal audit, review by management and documented policies, systems support, guidelines and procedures. The internal control is designed to ensure that financial and other records are reliable for preparing financial information and other data.

The Audit Committee reviews all the reports as prescribed under the regulations and compliance systems and suggests better internal control systems, policies and procedures as and when required. It also reviews Company's financial reporting processes, disclosure of financial information, related party transactions, etc.

#### Internal Financial Control

The Company has an established Internal Financial Control framework including internal controls over financial reporting and operating controls. The framework is reviewed regularly and tested by the internal audit team. The Company's business processes are enabled by the ERP for monitoring and reporting process resulting in financial discipline and accountability.

#### **OVERVIEW**

The financial statements have been prepared in compliance with the requirements of the Companies Act, 2013 and in compliance with Companies (Indian Accounting Standards) Rules, 2015. The estimates and judgments relating to the financial statements have been made on a prudent and reasonable basis, so that the financial statements reflect in a true and fair manner.

# DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

During the year, the Company recorded Revenue from Operations of ₹ 927.34 Crores as against ₹ 614.97 Crores in 2020-21, an increase of about 51%. Our Exports business registered a growth of 75% compared with previous year and stood at ₹ 221.48 Crores. Profit After Tax made during the year is ₹ 14.22 Crores as against ₹ 9.04 Crores in 2020-21, an increase of about 57%. The production during the year was 74,881 MT, compared to the previous year's 55,706 MT. #### **HUMAN RESOURCES/ INDUSTRIAL RELATIONS FRONT**

Human Resource is a continuous and ever evolving function at our Company. The Company believes that human resources enable The Company to consistently meet customer requirements and deliver exceptional performance for all stakeholders. The Company continues to maintain its record on cordial industrial relations. The Company believes that human resources are its most valuable assets and is thus committed to the welfare of its employees and their families. The Company continues to invest in people through various initiatives viz. training programmes, upgradation of knowledge etc., which enable the work force to meet the challenges. As on 31st March 2022, the employee strength of the Company was 1121.

## **HEALTH, SAFETY AND ENVIRONMENT**

The Company is fully committed to the ultimate goal of employee safety. Safety management is integrated with the overall Environment, Health and Safety (EHS). The Company has been certified under Integrated Management System (IMS) which consists of Energy (EnMS), Occupational Health & Safety (OHSAS) and Environmental (EMS) Management System to meet the compliances of the standards ISO 50001:2011, OHSAS 18001:2007 and ISO 14001:2015 respectively. The Company aims to be a preferred organization for all stake holders through the scaling performance of Energy, Safety, Health and Environment.

#### **CAUTIONARY STATEMENT**

Statement in this Management Discussion and Analysis describing the Company's objectives, projections, estimates and expectations may be "forward looking statements" and based on certain assumptions/expectations and current scenario and the input available. Actual results might differ substantially or materially to those expressed or implied. Important developments including global or domestic trends, political and economic environment in India or Overseas might affect the Company's operations.

# STANDALONE FINANCIAL STATEMENTS 2021-22

## REPORT ON THE STANDALONE FINANCIAL STATEMENTS

## **Opinion**

We have audited the accompanying standalone financial statements of **M/s.** Nelcast Limited ("the Company"), which comprise the Balance Sheet as at 31<sup>st</sup> March 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and Cash Flow Statement for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, of the state of affairs of the Company as at 31st March 2022, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

## **Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the standalone financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independent requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

## Information other than the Standalone Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance Report and Shareholder's information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

## Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Dobtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- > Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of Section 143(11) of the Act, we give in 'Annexure-A' a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF NELCAST LIMITED

REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")

We have audited the internal financial controls over financial reporting of **M/s. Nelcast Limited** ("the Company") as of 31<sup>st</sup> March 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

#### MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

## **AUDITOR'S RESPONSIBILITY**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

## MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that

- 1. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- Provide reasonable assurance that transactions are recorded as necessary to permit preparation
  of standalone financial statements in accordance with generally accepted accounting principles,
  and that receipts and expenditures of the Company are being made only in accordance with
  authorisations of management and directors of the Company; and
- 3. Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the standalone financial statements.

## INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **OPINION**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31<sup>st</sup> March 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

# **GENERAL INFORMATION**

Nelcast Limited ("the Company") is engaged in the manufacture of Iron Castings. The Company has manufacturing plants at Gudur and Pedapariya in Andhra Pradesh, and at Ponneri in Tamil Nadu. The Company is a public limited Company and is listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE).

# 1. SIGNIFICANT ACCOUNTING POLICIES

# 1.1 BASIS OF PREPARATION

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013 ("the Act"), the Companies (Indian Accounting Standard) Rules, 2015 and other relevant provisions of the Act.

The financial statements is prepared on historical cost convention, except in case of certain financial instruments which are recognised at fair value at the end of the reporting period and on an accrual basis as a going concern.

The financial statements are presented in Indian Rupees, which is the functional currency of the Company and the currency of the primary economic environment in which the Company operates.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the part I of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current, non-current classification of assets and liabilities.

#### 1.2 USE OF ESTIMATES

The preparation of the financial statements in conformity with the generally accepted accounting principles in India requires management to make estimates and assumptions that affect the reported amount of assets and liabilities as of the Balance Sheet date, reported amount of revenue and expenses for the year and disclosure of contingent liabilities and contingent assets as of the date of Balance Sheet. The estimates and assumptions used in these financial statements are based on management's evaluation of the relevant facts and circumstances as of the date of the financial statements. The actual amounts may differ from the estimates used in the preparation of the financial statements and the difference between actual results and the estimates are recognised in the period in which the results are known / materialise.

#### 1.3 FAIR VALUE MEASUREMENT

The Company measures financial instruments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

## **Non-derivative Financial Instruments**

# (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

# (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model.

# (iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories is subsequently fair valued through profit or loss.

# (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest where the fair value differs from the Transaction Price. Where the fair value does not differ, materially, from Transaction Price, the financial liabilities are stated at transaction price only.

## **Derivative Financial Instruments**

The Company holds derivative financial instruments such as foreign currency forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank.

# 1.4 PROPERTY, PLANT AND EQUIPMENT

Freehold Land is carried at historical cost. All other items of Property, Plant and Equipment are recorded at cost less accumulated depreciation. The cost of acquisition of property, plant and equipment is net of duty or tax credit availed and includes purchase cost or its construction cost, inward freight and other expenses incidental to acquisition or installation and any cost directly attributable to bring the asset into the location and condition necessary for it to be capable of operating in the manner intended for its use. Cost of spares relating to specific item of an asset is capitalized. For major projects, interest and other costs incurred on / related to borrowings attributable to such projects / fixed assets during construction period and related pre-operative expenses are capitalized as part of the cost of respective assets. Cost of assets not ready to use before such date are disclosed under "Capital Work-in-Progress".

The residual values, useful live and methods of depreciation of Property, Plant and Equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Depreciation is provided using the Straight Line Method as per the useful lives of the assets at the rates prescribed under Schedule II of the Companies Act, 2013.

## 1.5 INTANGIBLE ASSETS

Intangible assets are carried at cost less any accumulated amortization and accumulated impairment loss.

Costs incurred towards purchase of computer software are amortized using the straight line method over a period based on management's estimate of useful lives of such software or over the license period of the software, whichever is shorter.

## 1.6 IMPAIRMENT OF ASSETS

All assets other than Inventories and Investments are reviewed for impairment, wherever events or changes in circumstances indicate that the carrying amount of those assets may not be fully recoverable, in such cases the carrying amount of such assets is reduced to its estimated recoverable amount and the amount of such impairment loss is charged to the Statement of Profit and Loss.

If at the Balance sheet date there is an indication that the previously assessed impairment loss no longer exists, then such loss is reversed and the asset is restated to that effect.

#### 1.7 INVESTMENTS

All Investments are carried at fair value. Investments, which at the inception, have been designated to be held for a long term capital appreciation, the changes in the fair value are considered through Other Comprehensive Income. All other investments are valued at fair value and the gains or losses being recognised in Statement of Profit and Loss.

#### 1.8 INVENTORIES

Inventories are valued at the lower of cost and net realizable value.

Cost is ascertained on a moving weighted average basis. Cost includes cost of purchase, cost of conversion, and other costs incurred in bringing the inventories to their present location and condition.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

## 1.9 CASH AND CASH EQUIVALENTS

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

# 1.10 LEASES

The determination of whether an arrangement is or contains a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease. Lease where the Lessor retains substantially all the risks and rewards incidental to the ownership is classified as an operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss on straight-line basis over the lease term.

# 1.11 SEGMENT INFORMATION

The Company is principally engaged only in the business of manufacture of Iron Castings and there are no other reportable segments. The geographical segments considered for disclosure based on location of its customers.

#### 1.12 CONTRIBUTED EQUITY

Equity Shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

#### 1.13 DIVIDEND

Final dividend on shares are recorded as a liability on the date of approval by the shareholders and interim dividend are recorded as liability on the date of declaration by the Board.

# 1.14 GOVERNMENT GRANTS AND SUBSIDIES

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

# 1.15 REVENUE RECOGNITION

Sale of Goods: The Company derives revenues primarily from sale of Iron Castings. Revenue is measured based on the consideration specified in a contract with a customer. Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the probable consideration expected to be received in exchange for those products or services. Claims on the Company for price revision are accounted when facts and circumstances indicate that a price reduction is probable and the amount is can be reasonably estimated. The claims by the Company are recorded when it is accepted and it is reasonably certain that the amounts will be collected.

**Interest Income**: Interest Income is recognised on effective interest method taking into account the amount outstanding and the rate applicable.

**Profit on sale of investments**: Profit on sale of investments is recognised only at the time when the investments are realized.

**Export benefits, incentives and licenses:** Export incentives are recognised as income when the right to receive credit as per the terms of the scheme is established in respect of the exports made and where there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds.

## 1.16 FOREIGN CURRENCY TRANSACTION

# **Initial Recognition:**

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

# **Subsequent Recognition:**

As at the reporting date, non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. All monetary assets and liabilities in foreign currency are restated at the end of the accounting period. Exchange differences on restatement of all monetary items are recognised in the Statement of Profit and Loss.

# 1.17 BORROWING COSTS

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale capitalized as part of the cost of an asset. Where specific borrowings are identified to assets, the Company uses the interest rates applicable to that specific borrowing as the capitalization rate. Where borrowings cannot be specifically identified to assets, the capitalization rate applied is the weighted average of the interest rates applicable to all borrowings of the Company.

All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

#### **1.18 TAXES**

Income tax expense comprises of current and deferred tax. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with the Indian Income Tax Act, 1961. The tax rate and tax laws used to compute the amount are those that are enacted or substantially enacted, at the reporting date. Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provision where appropriate.

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxation authority.

## 1.19 EMPLOYEE BENEFITS

#### a. Defined Contribution Plans

- i) Provident Fund: The Company makes monthly Provident contributions at specified percentage of specified salary in accordance with the provisions of Employees Provident Funds and Miscellaneous Provisions Act, 1952 and the contributions are charged to Statement of Profit and Loss.
- ii) Superannuation Fund: The Company makes annual Superannuation fund contributions to defined contribution plan, administered by the Life Insurance Corporation of India, for qualifying employees. Under the Scheme, the Company is required to contribute a specified percentage of specified salary to fund the benefits. The contributions are charged to the Statement of Profit and Loss.

## b. Defined Benefit Plan

**Gratuity:** The Company provides for Gratuity, a defined benefit retirement plan covering eligible employees as per the provisions of the Payment of Gratuity Act, 1972. The plan provides for a payment to vested employees at retirement, death while in employment or on termination of employment, an amount equivalent to fifteen days salary payable for each year of completed service subject to maximum amount as may be prescribed. Vesting occurs upon completion of five years of service, except in case of death while in employment in which case the legal heirs would receive the Gratuity.

The cost of providing benefits determined using the projected unit credit method, which actuarial valuation being carried out at each Balance Sheet date. The retirement benefit obligation recognised as expenditure represents the present value of defined benefit obligation as reduced by the fair value of scheme assets. The Company makes contribution to Life Insurance Corporation of India to administer the fund. The changes in the actuarial assumptions are accounted through Other Comprehensive Income.

# 1.20 EARNINGS PER SHARE

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. There are no diluted earnings per share as there are no dilutive potential equity shares.

# 1.21 PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provisions are recognised when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Current Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date and are not discounted to its present value.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Contingent Assets are neither recognised nor disclosed in the financial statements.

# 30. EARNINGS PER SHARE

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the Company by the weighted average number of Equity Shares outstanding during the year. Diluted EPS amounts are calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of Equity Shares outstanding during the year plus the weighted average number of Equity Shares that would be issued on conversion of all the dilutive potential Equity Shares in to Equity Shares.

The Basic and Diluted EPS calculations are given below:

# 31. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

# **Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

# Defined employee benefit plans (Gratuity)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. Further details about defined benefit gratuity plan are given in Note No. 39.

#### Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

# Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow model.

#### 38. LEASES

Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17. The standard includes two recognition exemptions for lessees - leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognise the amount of the re-measurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under Ind AS 116 is substantially unchanged from today's accounting under Ind AS 17. Lessors will continue to classify all leases using the same classification principle as in Ind AS 17 and distinguish between two types of leases: operating and finance leases.

The Company has only short term leases.

# 39. EMPLOYEE BENEFITS

(i) The Company provides Gratuity for employees as per the Payment of Gratuity Act, 1972. Employees who are in continuous services for a period of five years are eligible for Gratuity. The amount of Gratuity payable on retirement / termination is the employees last drawn basic salary per month computed proportionately for fifteen days' salary multiplied for the number of years of service. The Gratuity plan is a funded plan and maintained with Life Insurance Corporation of India.

## **40. FAIR VALUES**

The management assessed that cash and cash equivalents, trade receivables, trade payables, bank overdrafts and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. Further, management has assessed the fair value of the borrowings approximate their current value largely since they are carried at floating rate of interest.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

## 41. CAPITAL MANAGEMENT

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximise the shareholder value.

# 42. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's principal financial liabilities comprise borrowings, trade and other payable. The main purpose of these financial liabilities is to finance the Company operations. The Company's principal financial assets include trade and other receivables and cash and cash equivalents derived directly from its operations.

The Company is exposed to credit risk, liquidity risk and market risk (including input cost risk, interest rate risk and foreign currency risk), which may adversely impact the fair value of its financial instruments. The Company assesses the unpredictability of the financial environment and seeks to mitigate potential adverse effects on the financial performance of the Company. The Company does not enter into or trade financial instruments for speculative purposes.

#### a. Credit Risk:

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, investments, derivative financial instruments, cash and cash equivalents, loans and other financial assets. None of the financial instruments of the Company result in material concentration of credit risk.

# b. Liquidity Risk:

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

#### c. Market Risk:

Economic recession gripped global economy following the lockdowns and surge in infections due to the Covid-19 pandemic was sudden and unexpected. While India is facing a tough battle with the second wave, a potential third wave or other complications could again impact both the domestic and global economy. External factors such as government policies and rainfall could have a significant impact on sales of Tractors and Commercial Vehicles, which are cyclical in nature. To mitigate the risk of seasonality & cyclicality in the domestic market, the Company has been developing its exports and products in other segmets viz. off-highway, railways etc.

# **Input Cost Risk:**

Our profitability and cost effectiveness may be affected due to change in the prices of raw materials, power and other input costs. While we are typically able to pass on these costs to our customers with a slight lag. This risk is significant and is carefully monitored.

#### Interest Rate Risk:

The Company aims to judiciously managed the debt-equity ratio. It has been using a mix of debt and internal cash accruals. The company works closely with our banks to minimise the interest costs. The Company works to manage the working capital requirements to reduce the overall interest cost.

## Foreign Currency Risk:

The Company's exposure on foreign currency is primarily through earnings from exports. The company also might import some capital goods and raw materials only when prices are favourable. However, this exposure is typically short term. The company does selective hedging of imports and exports to hedge its risks associated with exchange rates. Any substantial long-term liabilities viz. ECBs are fully hedged by the Company.

# **Unhedged foreign Currency**

The Company's unhedged foreign currency exposure is as follows:

(₹ in Lakhs)

# CONSOLIDATED FINANCIAL STATEMENTS 2021-22

# REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

# **Opinion**

We have audited the accompanying consolidated financial statements of **M/s.Nelcast Limited** ("the Holding Company") and its subsidiary (the Holding Company and its subsidiary together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at 31<sup>st</sup> March 2022, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, of the consolidated state of affairs of the Group as at 31st March 2022, consolidated profit and consolidated total comprehensive income, consolidated changes in equity and the consolidated cash flows for the year ended on that date.

# **Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independent requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

# **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

# Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records for safeguarding the assets of the

Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group is also responsible for overseeing the financial reporting process of the Group.

# Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Group has adequate internal financial controls system in place and the operating effectiveness of such controls.
- > Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- > Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are independent auditors.
- Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### **Other Matters**

We did not audit the financial statements / financial information of subsidiary, whose financial statements / financial information reflect total assets of ₹ 4131.21 Lakhs as at 31<sup>st</sup> March 2022, total comprehensive income of ₹ Nil and net cash flows amounting to ₹ -1.25 Lakhs for the year ended on that date, as considered in the consolidated financial statements. These financial statements/ financial information has been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of Sections 143(3) and 143(11) of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements / financial information certified by the Management.

# **Report on Other Legal and Regulatory Requirements**

As required by Section 143(3) of the Act, we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- (c) The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated cash flow statement dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors of the Holding Company as on 31<sup>st</sup> March 2022 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary company incorporated in India, none of the directors of the Group companies, incorporated in India is disqualified as on 31<sup>st</sup> March 2022 from being appointed as a director in terms of Section 164(2) of the Act.
- (f) With respect to the adequacy of internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate report in Annexure.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
  - i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group.
  - ii. Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
  - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company and its subsidiary company incorporated in India.

ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF NELCAST LIMITED

REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31<sup>st</sup> March 2022, we have audited the internal financial controls over financial reporting of **M/s. Nelcast Limited** ("the Holding Company") and its subsidiary Company, which is incorporated in India, as of that date.

# MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Board of Directors of the Holding Company and its subsidiary Company, which is incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

# **AUDITORS' RESPONSIBILITY**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

# MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that

- 1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- 2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and
- provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the consolidated financial statements.

## INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### OPINION

In our opinion, the Holding Company, its subsidiary Company, which is incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31<sup>st</sup> March 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

### **GENERAL INFORMATION**

Nelcast Limited ("the Holding Company") or ("Nelcast") is engaged in the manufacture of Iron Castings. The Holding Company has manufacturing plants at Gudur and at Pedapariya in Andhra Pradesh and Ponneri in Tamil Nadu. The Holding Company is a public limited Company and is listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). The Holding Company has a Subsidiary Company. The Holding Company together with its subsidiary is hereinafter referred to as the "Group".

#### 1. SIGNIFICANT ACCOUNTING POLICIES

### 1.1 BASIS OF PREPARATION

The financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013 (the Act), the Companies (Indian Accounting Standard) Rules, 2015 and other relevant provisions of the Act.

The financial statements is prepared on historical cost convention, except in case of certain financial instruments which are recognised at fair value at the end of the reporting period and on an accrual basis as a going concern.

The financial statements are presented in Indian Rupees, which is the functional currency of the Company and the currency of the primary economic environment in which the Company operates.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the part I of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current, non-current classification of assets and liabilities.

# 1.2 BASIS OF CONSOLIDATION

The consolidated financial statements of the Group incorporate the financial statements of the Holding Company and its subsidiary. The Holding Company has control over the subsidiary as it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect its returns through its power over the subsidiary.

Consolidation of a subsidiary begins when the Holding Company obtains control over the subsidiary and ceases when the Holding Company losses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statement of profit and loss and other comprehensive income from the date the Holding Company gains control unit the date when the Holding Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Holding Company and to the non-controlling interests. Total comprehensive income of subsidiary is attributed to the owners of the Holding Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

The consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

All intra group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the Holding Company i.e., year ended 31st March.

The Consolidated Financial Statements have been prepared on the basis of the financial statements of its subsidiary as detailed below:

Name of the Subsidiary	Country of Incorporation	Nature of Interest	% of Interest	Accounting year
NC Energy Limited	India	Subsidiary	93.44%	31st March

#### 1.3 FAIR VALUE MEASUREMENT

The Company measures financial instruments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

# **Non-Derivative Financial Instruments**

#### (i) Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

### (ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model.

(iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories is subsequently fair valued through profit or loss.

### (iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest where the fair value differs from the Transaction Price. Where the fair value does not differ, materially, from Transaction Price, the financial liabilities are stated at transaction price only.

### **Derivative Financial Instruments**

The Company holds derivative financial instruments such as foreign currency forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank.

### 1.4 PROPERTY, PLANT AND EQUIPMENT

Freehold Land is carried at historical cost. All other items of Property, Plant and Equipment are recorded at cost less accumulated depreciation. The cost of acquisition of property, plant and equipment is net of duty or tax credit availed and includes purchase cost or its construction cost, inward freight and other expenses incidental to acquisition or installation and any cost directly attributable to bring the asset into the location and condition necessary for it to be capable of operating in the manner intended for its use. Cost of spares relating to specific item of an asset is capitalized. For major projects, interest and other costs incurred on / related to borrowings attributable to such projects / fixed assets during construction period and related pre-operative expenses are capitalized as part of the cost of respective assets. Cost of assets not ready to use before such date are disclosed under "Capital Work-in-Progress".

The residual values, useful live and methods of depreciation of Property, Plant and Equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Depreciation is provided using the Straight Line Method as per the useful lives of the assets at the rates prescribed under Schedule II of the Companies Act, 2013.

### 1.5 INTANGIBLE ASSETS

Intangible assets are carried at cost less any accumulated amortization and accumulated impairment loss.

Costs incurred towards purchase of computer software are amortized using the straight line method over a period based on management's estimate of useful lives of such software or over the license period of the software, whichever is shorter.

### 1.6 IMPAIRMENT OF ASSETS

All assets other than Inventories and Investments are reviewed for impairment, wherever events or changes in circumstances indicate that the carrying amount of those assets may not be fully recoverable, in such cases the carrying amount of such assets is reduced to its estimated recoverable amount and the amount of such impairment loss is charged to the Statement of Profit and Loss.

If at the Balance sheet date there is an indication that the previously assessed impairment loss no longer exists, then such loss is reversed and the asset is restated to that effect.

#### 1.7 INVESTMENTS

All Investments are carried at fair value. Investments, which at the inception, have been designated to be held for a long term capital appreciation, the changes in the fair value are considered through Other Comprehensive Income. All other investments are valued at fair value and the gains or losses being recognised in Statement of Profit and Loss.

### 1.8 INVENTORIES

Inventories are valued at the lower of cost and net realizable value.

Cost is ascertained on a moving weighted average basis. Cost includes cost of purchase, cost of conversion, and other costs incurred in bringing the inventories to their present location and condition.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

#### 1.9 CASH AND CASH EQUIVALENTS

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

### 1.10 LEASES

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease. Lease where the Lessor retains substantially all the risks and rewards incidental to the ownership is classified as an operating lease. Operating lease payments are recognised as an expense in the Statement of Profit and Loss on straight-line basis over the lease term.

### 1.11 SEGMENT INFORMATION

The Holding Company is principally engaged only in the business of manufacture of Iron Castings and the Subsidiary Company has not commenced its commercial operations and hence, there are no other reportable segments. The geographical segments considered for disclosure based on location of its customers.

### 1.12 CONTRIBUTED EQUITY

Equity Shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

### 1.13 DIVIDEND

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividend are recorded as liability on the date of declaration by the Board.

### 1.14 GOVERNMENT GRANTS AND SUBSIDIES

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

### 1.15 REVENUE RECOGNITION

**Sale of Goods:** The Company derives revenues primarily from sale of Iron Castings. Revenue is measured based on the consideration specified in a contract with a customer. Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the probable consideration expected to be received in exchange for those products or services. Claims on the Company for price revision are accounted when facts and circumstances indicate that a price reduction is probable and the amount is can be reasonably estimated. The claims by the Company are recorded when it is accepted and it is reasonably certain that the amounts will be collected.

**Interest Income:** Interest Income is recognised on effective interest method taking into account the amount outstanding and the rate applicable.

**Profit on sale of investments:** Profit on sale of investments is recognised only at the time when the investments are realized.

**Export benefits, incentives and licenses:** Export incentives are recognised as income when the right to receive credit as per the terms of the scheme is established in respect of the exports made and where there is no significant uncertainty regarding the ultimate collection of the relevant export proceeds.

### 1.16 FOREIGN CURRENCY TRANSACTION

### **Initial Recognition:**

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

## **Subsequent Recognition:**

As at the reporting date, non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. All monetary assets and liabilities in foreign currency are restated at the end of the accounting period. Exchange differences on restatement of all monetary items are recognised in the Statement of Profit and Loss.

#### 1.17 BORROWING COSTS

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale capitalized as part of the cost of an asset. Where specific borrowings are identified to assets, the Company uses the interest rates applicable to that specific borrowing as the capitalization rate. Where borrowings cannot be specifically identified to assets, the capitalization rate applied is the weighted average of the interest rates applicable to all borrowings of the Company.

All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

#### **1.18 TAXES**

Income tax expense comprises of current and deferred tax. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with the Indian Income Tax Act, 1961. The tax rate and tax laws used to compute the amount are those that are enacted or substantially enacted, at the reporting date. Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provision where appropriate.

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxation authority.

### 1.19 EMPLOYEE BENEFITS

### a. Defined Contribution Plans

- i) Provident Fund: The Company makes monthly Provident contributions at specified percentage of specified salary in accordance with the provisions of Employees Provident Funds and Miscellaneous Provisions Act, 1952 and the contributions are charged to Statement of Profit and Loss.
- ii) Superannuation Fund: The Company makes annual Superannuation fund contributions to defined contribution plan, administered by the Life Insurance Corporation of India, for qualifying employees. Under the Scheme, the Company is required to contribute a specified percentage of specified salary to fund the benefits. The contributions are charged to the Statement of Profit and Loss.

#### b. Defined Benefit Plan

**Gratuity:** The Company provides for Gratuity, a defined benefit retirement plan covering eligible employees as per the provisions of the Payment of Gratuity Act, 1972. The plan provides for a payment to vested employees at retirement, death while in employment or on termination of employment, an amount equivalent to fifteen days salary payable for each year of completed service subject to maximum amount as may be prescribed. Vesting occurs upon completion of five years of service, except in case of death while in employment in which case the legal heirs would receive the Gratuity.

The cost of providing benefits determined using the projected unit credit method, which actuarial valuation being carried out at each Balance Sheet date. The retirement benefit obligation recognised as expenditure represents the present value of defined benefit obligation as reduced by the fair value of scheme assets. The Company makes contribution to Life Insurance Corporation of India to administer the fund. The changes in the actuarial assumptions are accounted through Other Comprehensive Income.

### 1.20 EARNINGS PER SHARE

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. There are no diluted earnings per share as there are no dilutive potential equity shares.

# 1.21 PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provisions are recognised when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Current Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date and are not discounted to its present value.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Contingent Assets are neither recognised nor disclosed in the financial statements.

### 30. EARNINGS PER SHARE

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the Company by the weighted average number of Equity Shares outstanding during the year. Diluted EPS amounts are calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of Equity Shares outstanding during the year plus the weighted average number of Equity Shares that would be issued on conversion of all the dilutive potential Equity Shares in to Equity Shares.

The Basic and Diluted EPS calculations are given below:

### 31. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

### **Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

### Defined employee benefit plans (Gratuity)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. Further details about defined benefit gratuity plan are given in Note No. 39.

### Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the discounted cash flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

# Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow model.

#### 38. LEASES

Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17. The standard includes two recognition exemptions for lessees - leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognise the amount of the re-measurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under Ind AS 116 is substantially unchanged from today's accounting under Ind AS 17. Lessors will continue to classify all leases using the same classification principle as in Ind AS 17 and distinguish between two types of leases: operating and finance leases.

The Company has only short term leases.

# 39. EMPLOYEE BENEFITS

### **40. FAIR VALUES**

The management assessed that cash and cash equivalents, trade receivables, trade payables, bank overdrafts and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. Further, management has assessed the fair value of the borrowings approximate their current value largely since they are carried at floating rate of interest.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

### 41. CAPITAL MANAGEMENT

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders. The primary objective of the Company's capital management is to maximise the shareholder value.

### 42. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's principal financial liabilities comprise borrowings, trade and other payable. The main purpose of these financial liabilities is to finance the Company operations. The Company's principal financial assets include trade and other receivables and cash and cash equivalents derived directly from its operations.

The Company is exposed to credit risk, liquidity risk and market risk (including input cost risk, interest rate risk and foreign currency risk), which may adversely impact the fair value of its financial instruments. The Company assesses the unpredictability of the financial environment and seeks to mitigate potential adverse effects on the financial performance of the Company. The Company does not enter into or trade financial instruments for speculative purposes.

#### a. Credit Risk:

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, investments, derivative financial instruments, cash and cash equivalents, loans and other financial assets. None of the financial instruments of the Company result in material concentration of credit risk.

### b. Liquidity Risk:

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

# c. Market Risk:

Economic recession gripped global economy following the lockdowns and surge in infections due to the Covid-19 pandemic was sudden and unexpected. While India is facing a tough battle with the second wave, a potential third wave or other complications could again impact both the domestic and global economy. External factors such as government policies and rainfall could have a significant impact on sales of Tractors and Commercial Vehicles, which are cyclical in nature. To mitigate the risk of seasonality & cyclicality in the domestic market, the Company has been developing its exports and products in other segments viz. off-highway, railways etc.

## **Input Cost Risk:**

Our profitability and cost effectiveness may be affected due to change in the prices of raw materials, power and other input costs. While we are typically able to pass on these costs to our customers with a slight lag. This risk is significant and is carefully monitored.

#### **Interest Rate Risk:**

The Company aims to judiciously managed the debt-equity ratio. It has been using a mix of debt and internal cash accruals. The company works closely with our banks to minimise the interest costs. The Company works to manage the working capital requirements to reduce the overall interest cost.

# Foreign Currency Risk:

The Company's exposure on foreign currency is primarily through earnings from exports. The company also might import some capital goods and raw materials only when prices are favourable. However, this exposure is typically short term. The company does selective hedging of imports and exports to hedge its risks associated with exchange rates. Any substantial long-term liabilities viz. ECBs are fully hedged by the Company.

# **Unhedged foreign Currency**

The Company's unhedged foreign currency exposure is as follows:
